Terrybear Urn Pendants

Product Overview

The Terrybear Urn Pendants are a unique solution to solve a request for personalization. These Pendants come in two different designs, both feature flat engravable surfaces. The Oval Pendant features a brushed center area and glossier edges and backing. The Photo Frame Pendant features a small photo frame inside a locket-style pendant. The front cover is a brushed finish and the edges and backing are a shiny finish. The cover stays closed with small, discreet magnets.

All Pendants are suitable for rotary engraving. Pendants are packaged with accompanying ribbon (for hanging) and may be displayed in their blue jewelry box.

Product Placement Concepts

As a means of personalization: The Terrybear Urn Pendant is a nice accessory for urns and memorials that are not able to be engraved. Terrybear Pendants come with an accompanying satin ribbon for hanging. The ribbon allows the pendant to fit on a variety of urns and memorials, as you can tie it to fit many shapes and sizes. The smooth satin also prevents scratching.
